SNRIU Chairman has Handed Over the License to SSE Chornobyl NPP

April 26, 2021 at 15:00

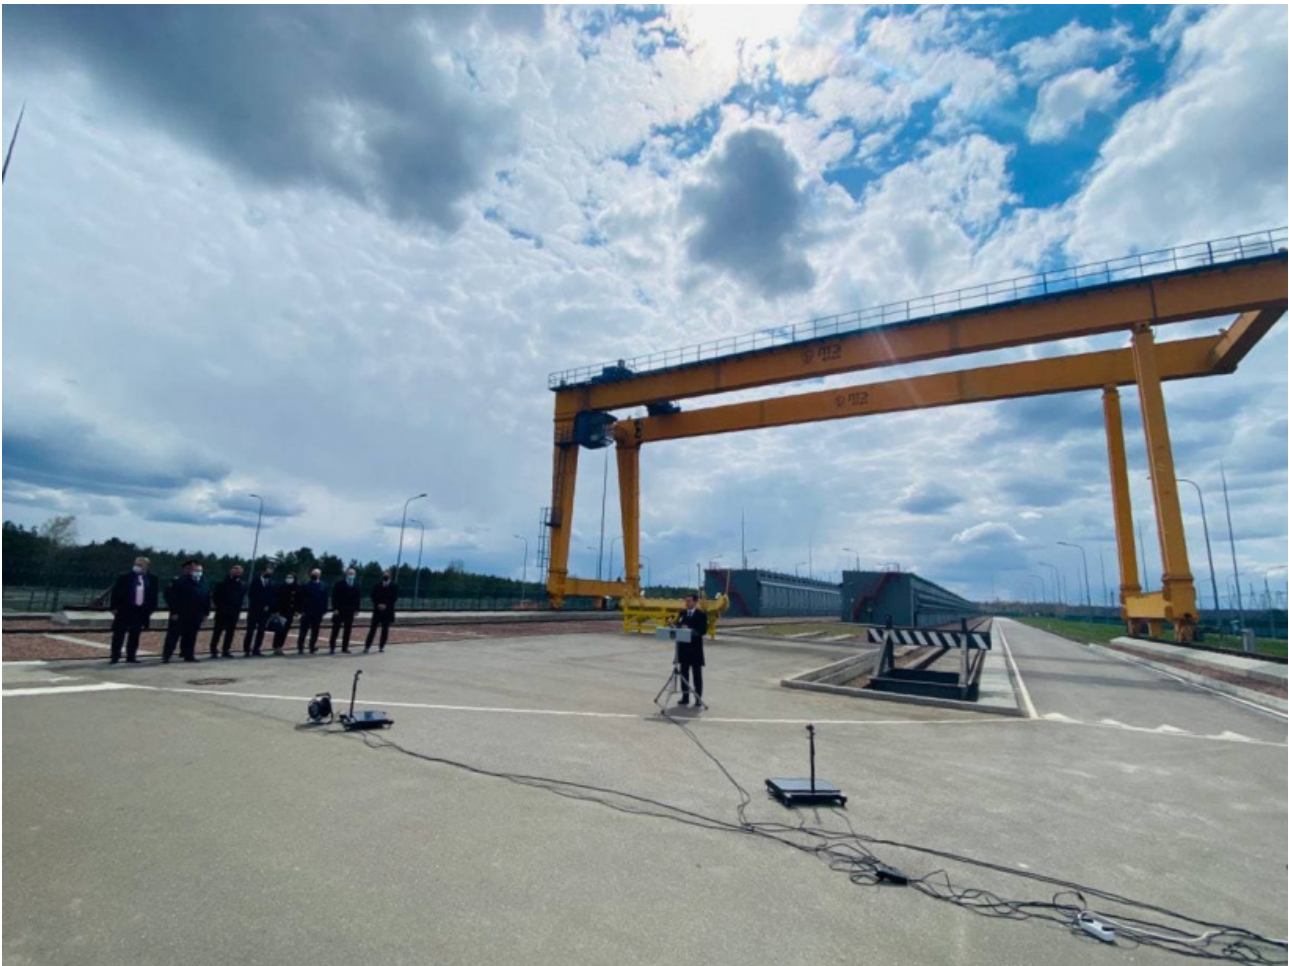

Chairman – Chief State Inspector on Nuclear and Radiation Safety of Ukraine Grigoriy PLACHKOV has handed over the License for the right to implement the activities at the stage of the lifecycle «Operation of Nuclear Facility – Dry Spent Nuclear Fuel Storage Facility (ISF-2)» to Acting General Director of SSE Chornobyl NPP Valery Seyda.

The handover took place during the official events chaired by the President of Ukraine Volodymyr ZELENSKY and with the participation of the Prime-Minister of Ukraine Denys SHMYHAL, Minister of the Ministry of Environmental Protection and Natural Resources of Ukraine Roman ABRAMOVSKY, Head of the State Agency of Ukraine on Exclusion Zone Management Sergiy KOSTYUK, dedicated to the 35th anniversary of the Chornobyl disaster.

The SNRIU Chairman congratulated the SSE Chornobyl NPP and thanked all the parties involved in the implementation of the Project.

The Facility is important in view of ChNPP decommissioning. Spent nuclear fuel management is an integral part of the nuclear fuel cycle, and the safety is the first priority at all the stage of this process. The Dry Spent Nuclear Fuel Storage Facility at Chornobyl PNN is designed to receipt, process for storage and long-term storage (during 100 years) of all spent nuclear fuel accumulated during the ChNPP operation.
