

Carbon Reduction Plan

Supplier name: Holtec International

Publication date: 8/8/2023

Commitment to achieving Net Zero

Holtec is committed to achieving Net Zero emissions by 2050 for our UK operations

Baseline Emissions Footprint

Baseline UK emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline UK emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2021	
Additional Details relating to the Baseline UK Emissions calculations.	
<p>Our Baseline calculation includes:</p> <ul style="list-style-type: none"> • Scope 1: Direct Emissions • Scope 2: Indirect Emissions • Scope 3 Categories: 1: Purchased goods and services: 3: Fuel and energy related activities: 4: Upstream transportation & distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking: <p>Our Baseline deviates from the requirements under PPN 06/21 as follows:</p> <ul style="list-style-type: none"> • Scope 3: Category 9: Downstream transportation & distribution: is not included as no downstream transportation and distribution occurred in the given period. • Scope 3: Category 1: Purchased goods and services: is included as , although this is not a requirement. Scope 3: Category 3: Fuel and energy related activities: is included as , although this is not a requirement. 	
Baseline year UK emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	1.5 tCO ₂ e
Scope 2	1.4 tCO ₂ e
Scope 3 <small>(included sources as detailed above)</small>	42.2 tCO ₂ e
Total Emissions	45.1 tCO ₂ e

Carbon Reduction Plan

Current UK Emissions Reporting

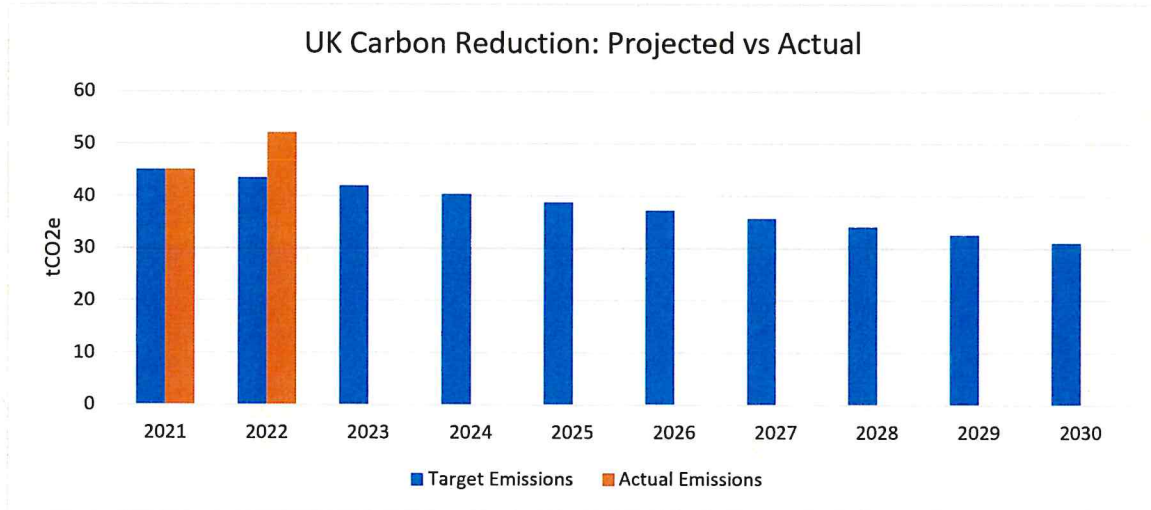

Reporting Year: Jan 2022 to Dec 2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	1.5 tCO ₂ e
Scope 2	1.2 tCO ₂ e
Scope 3 <small>(included sources as detailed above)</small>	49.4 tCO ₂ e
Total Emissions	52.1 tCO₂e

UK Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following UK carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 37.3 tCO₂e by 2026. This is a reduction of 17.2 %

Progress against these targets can be seen in the chart below:

Carbon Reduction Plan

UK Carbon Reduction Projects

Completed UK Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented for UK operations since the baseline and the measures will be in effect when performing the contract.

- Implemented a process to reduce and recycle packaging
- Joined Go Climate Positive carbon certificate programme

Future UK Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Conduct quarterly team engagement activity to identify opportunities for energy reduction and emissions reductions from business travel and commuting
- Complete an employee commuting and homeworking survey

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions for our UK operations have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions for our UK operations have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by a member of the Executive Committee.

A handwritten signature in black ink that reads "Rick Springman".
